The Neurosciences Center of Southeast Health, a 420 bed non-profit community based health center, seeks a fellowship trained physician with neuroendovascular training to join an expanding neurosurgery program that treats adult patients. This neurology trained neurointerventionalist or neurointerventional radiology physician will have access to dedicated neurointerventional lab for endovascular procedures. The neuroscience team is comprised of 3 BC neurosurgeons (one surgeon is a neuroendovascular interventionalist), medical neurologists, neurohospitalists, and neuroradiologists. Dothan, Alabama is recognized nationally as a best place to raise kids and a best place to retire.

Benefits Include:
- Full-time employed position
- Highly competitive and desirable compensation/benefits package
- Paid malpractice and medical liability
- Opportunity for student loan repayment
- Commencement bonus
- Paid relocation expenses

Practice Highlights
- Dedicated neurosurgery scrub team
- Neurological trained RN team assists with hospital rounding
- Dedicated neurointerventional lab outfitted with Siemens Artis Q biplane and trained technicians
- Will provide coverage at only one hospital
- Office is located on SAMC campus with easy access to hospital, emergency department and surgical services
- Vascular, anesthesia and pulm/critical care support available 24/7
- 10 bed dedicated Neurocritical Care Unit
- Robust hospitalist service provides medical consultative support for nonsurgical issues
